We at Georgia Chiropractic and Massage (GACM) understand that you have your choice of medical providers, and are grateful that you have chosen us. As a patient of GACM, it is our mission to provide you treatments that will assist you in getting back to a better quality of life. It is our position that while receiving treatments at the office, the ability to maintain your daily routine as much as possible can be beneficial to your overall health and recovery. However, depending on the individual circumstances, we understand that this might not be possible for everyone despite the quality of treatment you are receiving.

At some point you may feel the need to apply for temporary or permanent disability benefits, or file a worker's compensation claim. By signing you understand and agree to the following:

1. *GACM will not get involved in any disability or worker's compensation claims that you may file as a result of your condition in which you are receiving treatment.*

3. *GACM, including any of its Doctors and staff, will not complete any disability or worker's compensation packets and/or information on your behalf, outside of providing copies of your records.*

You or your legal representative agree to these terms with the knowledge that you have the right to file a worker's compensation claim or apply for and obtain disability benefits on your behalf; and that there are other practitioners and practices who provide similar services and will assist with such claims, and you voluntarily choose not to seek treatment from those other practitioners or practices.

## Terms of Acceptance

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective. Chiropractic has only one goal, to detect and correct/reduce the vertebral subluxation complex. It is important to each patient to understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

**Adjustment:** An adjustment is a specific application of forces to facilitate the body's correction of a vertebral subluxation. Our chiropractic method is by specific adjustments of the spine.

**Health:** A state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.

**Vertebral Subluxation:** A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express maximum health potential.

## Patient Inform Consent

I hereby request and consent to the performance of chiropractic adjustments and other chiropractic procedures, including various modalities of physical therapies and diagnostic x-rays, on me (or on the patient named below, for whom I am legally responsible) by the doctor of chiropractic named below and/or other licensed doctors of chiropractic who now or in the future work at the clinic or office listed below or any other office or clinic.

I have had an opportunity to discuss with the doctor of chiropractic named below and/or with other office or clinic personnel the nature and purpose of chiropractic adjustments and other procedures. I understand that results are not guaranteed.

I understand and am informed that, as in the practice of medicine, in the practice of chiropractic there are some risks to treatment, included but not limited to fractures, disc injuries, strokes, dislocations and sprains. I do not expect the doctor to be able to anticipate and explain all risks and complications, and I wish to rely upon the doctor to exercise judgment during the course of the procedure which the doctor feels at the time, based upon the facts then known to him/ her, is in my best interest.

I have read, or have had read to me, the above consent. I have also had an opportunity to ask questions about its content, and by signing the authorization on the application I agree to the above named procedures. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
